In the arms of an angel  
 Each and every second that goes by, a tear drop falls  
 I can't seem to find my way back but yet I call  
 I reach out to feel you and to hold you  
 and then I realize my arms are empty  
 I look to see you smilin and singing  
 But now the air is silent and the only song is of the wind blown  
 My world and heart have crumbled into many pieces scattered all around  
 some of the pieces I dont think will every be found  
 We had so many plans we made and so much more to do in life  
 until you went to sleep on one March 11th Monday nite  
 The pain is more than I can bare  
 Just knowing you will never be back here  
 Where I can hold u and keep u safe  
 I been told ur in a better place  
 We are left here to carry on  
 Hard to do that now that your gone  
 May you sing with the birds fly like the angels  
 and send me butterfly kisses in the rain  
 I will always love and cherish you in my memories  
 Mommy

A drop in the ocean,  
 A change in the weather,  
 I was praying that you and me  
 might end up together,  
 It's like wishing for rain  
 as I stand in the desert,  
 But I'm holding you closer  
 than most,  
 Cause you are my heaven.

it does not feel as if this was real. it was just yesterday  
laughing and jumping smiling and dancing where did u go?  
yur still my best friend! Even tho ur not here still nothin is clear  
I just want u back is that to much to ask?  
this is hard and it hurts..  
We should put thoses suckers in the dirt  
I LOVE YOU AND MISS YOU ILL NEVER FORGET YOU  
how could i forget such a pretty face?  
Please my angel lay down and rest</3

Sometimes... I wanna cry...  
but when I remember  
all the good moments  
that I had by your side...  
i feel better...  
this remind me that you've changed  
MY WHOLE LIFE  
I MISS U... A LOT ♡

imikimi.com

Dear Mommy,

Mommy did you think of me today?  
Mommy did you cry?  
Mommy I know that it is hard for you  
And can't understand why  
Mommy please don't be angry with God  
It was time for me to leave  
I know that there are questions  
And answers you can't believe  
But know mommy that I'm okay  
And never left your side  
Do you hear the things I say?  
Can you find the things I hide?  
The only thing I cannot take away  
Is the pain that your heart feels  
So I asked the Lord for just one wish  
To help your heart to heal  
He told me to think carefully  
About what I could say or do  
To show how much you mean to me  
And how much I miss you too  
I thought of all the little things  
That used to make us laugh  
I thought of all the prayers you have  
Just to have me back  
I knew just what my wish would be  
It was there in front of me

In Loving Memory of...  
dana marie

A beautiful Dove God gave to me  
To show me of his love  
I whispered to the dove  
I told him how to find you  
I placed him on a rainbow  
So mommy when you think of me  
And cannot bare the pain  
Look for the gift I sent to you  
And allow my memory to remain  
I am in every laugh you have  
In every hug you share  
I am the one who knows your soul  
And want you mommy to let go  
Take with you the memories  
Of the life you made  
And remember I never meant to  
Cause you so much pain  
So when you need to feel my touch  
Or to know that I'm still there  
Find the gift I sent from above  
And see in it all my love  
When you see a feather on the ground  
Know that I am still around.....

To all who pass through this way we created this website so you could always have a place to go to let your mind free. You can add pictures or just leave a note. If you have a great memory you want to share just type it in and we want to hear from all her friends. We will be adding many more pics so if you have any please add them. We will try to help anyone who needs it. Please don't be afraid to come back we will update it often.

To all of her beloved friends - our family thanks you very much for making her daily life as special as it was. She adored many of you and she will be with you always. Don't ever stop talking to her because you know how much she loved to talk! She'll always be there to listen. We know that we all now have a special guardian angel on our shoulders.

Our family would like to THANK EVERYONE for helping us from the beginning of this very emotional, dark, and tragic journey that we must all take in our own way, and just for being there holding us and praying for us.

*When tomorrow starts without me, and I'm not there to see. If the sun should rise and find your eyes all filled with tears for me, I wish that you wouldn't cry the way that you did today, while thinking of the many things that we didn't get to say. I know how much you loved me, as much as I loved you, and each time that you think of me, I know that you'll miss me too. But when tomorrow starts without me please try to understand that an angel came and called my name and took me by the hand and said that my place was ready in heaven far above, and that I have to leave those I dearly love. So when tomorrow starts without me, don't think we are far apart, for every time you think of me I will always be in your heart.*

**April 13th\*\***I want to thank everyone for there phone calls there stopping by and their memories n candles n pictures.

It helps our family to no how much she was loved and to the people that took her, life how much u hurt and destroyed so many lives with ur calious act.

**One arrest has been made and we are awaiting others!**

Today we will again try to make it through another day n pray that dana is sendin the strenght to do that. We will someday come to terms that Dana will never be here to laugh, sing, giggle, play, hug or live. We no she never wanted to go to sleep forever and her family is fightin hard to make sure the people responsible for this will be held accoutable for her going to heaven. We must all

remember that the victim has no rights. So danas family will push to make sure what little in life and justice there is we will get to make sure dana can rest in peace. So we just want you that we THANK YOU for your support and strenght through all of this dark journey we now have to travel.

\*\*\*\*The people of Westchester have the right to know that your children are not being protected. The District Attorney Janet Difiore doesn't care to get involved unless it's easy. Difiore only puts out promos about how she cares and she is combatting crime but on the other hand she told me there is nothing she can do. Yes there is something YOU can do. Get in the real world of these young peoples minds. The laws ARE ARCHAIC. You need to get with the times to day or more childrens blood will die on your hands. I quote from "one parent to another..." well WHERE ARE YOU NOW!!!! The web and myspce are now telling you something and this is the message...As long as you are under 16 years old it doesnt matter you can get away with anything and probably get probation.. Join a gang they protect you more ... GREAT MESSAGE!!!!!!

Dee, you will live forever in our memories and hearts!!!!

*Tragedy may have taken you away*

The background is a textured, mottled olive-green color. In the upper right quadrant, there are two roses. The one on the left is smaller and more tightly closed, while the one on the right is larger and more open, showing its petals. The roses are rendered in a light, almost ethereal tone, blending with the background.

**Thinking of you**

**July 27, 2008**

My thoughts and prayers are with all who love and miss Dana and especially with her very precious and dedicated Mommy. Your angel is just beautiful she captured my heart I spent quite some time looking at her pictures. This website is just fantastic what a wonderful tribute to your precious daughter. I can clearly tell how much she is loved by the many heart touching candles, memories and condolences.

My heart broke into a million pieces when I read Dana's story, Is this really what society has come to? Shame on the people who did this, and shame on the justice system for letting you down.

I can not possibly imagine the anger and disappointment you are experiencing. I wish that there where something I could say to ease your heartache, I have my own precious angel so I feel your pain and emptiness everyday, I only pray that you have some comfort knowing that others care. I will be thinking of you on the 1st of August at the bench naming cemony although I am to far away to attend I will release a white balloon in Dana's honor from Australia.

God bless your family. Edwina Mitchell Mum to Troy Mitchell

Dana,

i remember the good old days acting like retards on central with shaving cream on our faces saying " beep for the retard" and everyone beeped. i miss you so much, everyday the miss becomes stronger and stronger. i miss school with you, seeing you everyday with your pink bookbag. dana you have no idea how much i miss you. its like everyday i want to call you and talk to you about how much i used to like whats his name. lol. i remember we were at lizs confirmation and we had 2 bring buddy out how he almost got hit by a car, and we ran onto the rock and i was crying and you started crying. it was the stupidest reason in the world, but then we laughed about it. i was at mcdonalds and i was thinking how we bought two mchicken sandwiches and we didnt have enough money lol. i just wish you were here. i keep thinking about those days. i never thought that you would be gone so early. i still dont believe it after two months. tomoro is your birthday the big ONE-THREE. i wish you were still here so we can throw your party and have fun like last year. PUTTING NAIL POLISH ON MY FEET AND BACK. tee pee for your bum hole. lol. making me eat DOG FOOD. wow lol. i still have that thing you recorded on my razr saying" loser loser loser dana is a loser ME!" i play it again and again just to hear your voice. we were supposed to make our confirmation together. i was sitting in the thing thinking about you and thinking about how you would make me laugh in church over the stupidest stuff. lol. then i started laughing and everyone looked at me lol. i miss you more and more each day. i feel your with me alot. and i just wish we could talk again. i love you dana.

***I want to take away your pain***

***May 13, 2008***

This is Joan - although we have only met a few weeks ago in a very terrible way - at our grievance group - I think of you often and wish I had the right words to somehow make sense of our pain and our loss but there just isn't any. Know that I continue to keep you in my prayers as you fight for justice. I'm here for you and not just on Tuesday evenings - you can reach out at anytime even if it's to scream or cry and know that you don't have to say a word - I just know.

i did not know your daughter, i was looking at son's and his friends web sight and came across your daughters . ever death is a tragic loss i can't even imagine the pain your family is going through. my son and his friends lost their lives while hunting they were in a car accident and drowned that was hard enough. please know my prayer will be with you and your daughter was is very beautiful. our children are

looking down from heaven and smiling upon us everyday i have to keep my faith in GOD and pray your family does to.

**Grace**

**Blessings**

**May 2, 2008**

I can only imagine the agony that your family must be going through - my heart goes out to all of you - though I never knew Dana Marie personally I am related to someone who did and they always spoke highly of her - she was an angel here on earth and now she is one in Heaven. I believe she is watching over all her loved ones and will always do so. She is safe with God now and one day you will reunited with her.

I will continue to pray for your family that God gives you the strength to keep on fighting and most importantly that justice will be done. I am sickened and disgusted by our justice system. These murderers deserve to feel all the pain and misery that you unfortunately have to feel now. They obviously don't know how it feels to lose a child. Your Dana isn't free to walk around anymore and neither should any of them - I believe strongly in karma - no matter what they will get theirs in the end.

God bless your family

Hi, Well first let me say that this kid who did this needs to get castrated and ass raped in prison. His dad is just as bad as he is. Pardon my French I mean no disrespect. I don't even know this poor girl but it still hurts. I can't imagine what your family and friends are going through. It must be agonizing. It's really a pity that someone would sink that low and steal someones child right from under them. If I were in your shoes (and I'm not reccommending this) I would be in prison right now for homicide. All I can say is this kid

needs to suffer... :-)

***Our Prayers are with You***

***April 24, 2008***

I only heard about this tragedy last night. Dana went to nursery, pre-k and kindergarten with my twins (Joseph and Gabriella). Although we have not seen Dana in a long time, both Joseph and Gabriella remember her fondly. Joseph is especially fond as he remembers her as his "first girlfriend". Dana used to bring him envelopes to nursery school filled with stickers and kisses on the outside of the envelope. It was so cute and she was such a sweet child. I cannot imagine what the family is going through, but I just wanted you to know that although you may not remember us, we remember Dana and will continue to pray for her and the family and pray that justice is done for this terrible tragedy. You will be in our thoughts and prayers.

My niece actually mentioned this to me before I read about it in the paper. She is also 12 years old, just like Dana. The thought of losing her makes me realize only a fraction of the pain you and your family are going thru. Tough days now yield better days tomorrow (and after); in time you will see those days before you. Please hang tight and know that there are lots of people sending prayers your way.

With all my sympathy,

Another mom.

*I will be praying that Justice is served. I lost my granddaughter in Nov.12,2005, her boyfriend shot her in front of all her family. My daughter had a family barbaque for her and her little sister, there was about 6 young people that was there, other than that it was all family. Her boyfriend ran in the house and got a 9mm and came running out and shot her 5 times,hitting her heart,lungs & kidney's, It has taken since that time until March 12th of this year to finally get a conviction. But they did find her guilty of second degree murder with special allacations which he got 40 to life with no chance of parole for the first 40 years. It has been the most terrible time of my life. I know that God will take care of the people who done this awful thing to your beautiful daughter. I will keep you in my heart and pray for Justice. If there is anything I can do to help you in anyway please just let me know. I know how this terrible pain can hurt, God Bless you precious Dana and all who love and miss you.

The background is a textured, mottled brownish-gold color. In the upper right quadrant, there are two roses. The one on the left is smaller and more tightly curled, while the one on the right is larger and more open, showing more of its petals. The roses are rendered in a slightly darker shade of the background color, giving them a subtle, embossed appearance.

*--Dana Marie Stella Regan--*

*Dana ii know that ii haven't been on the website in a really long time but ii promise you that, that doesn't mean ii am not thinking of you. instead of things getting better they are getting worse ii miss you more and& more each day. It is become very unbearable and& iidk how to deal with it. There is not one day that goes by that ii don't think about you. Everything ii do seem to just always remind me of you. Lately ii haven't been telling anyone how ii feel, ii have just been keeping it in. Yes, ii do know that it's not the best thing for me but ii just can't tell people how ii feel anymore, they just don't seem to understand. They say to me oh ii understand, ii get it, but deep down they don't have one clue about what I'm talking about and& you know what iidc, it's whatever to me. It seems like just yesterday you left us. People are always telling me everything happened for a reason and& losing you happened for a reason too but I don't see it. ii want someone, anyone tell me the reason for losing you. Cause ii*

*will find a better reason for not losing you. ii told you everything about literally and& now that you are gone ii don't have anyone to talk to. Nobody could ever take your place, no matter how hard they try of how much they think they could help. There are a lot of people who try to be you in my life they try to take your place they try to make me feel better but when they try it makes me miss you more. Almost every night on my laptop ii right to you. ii say how ii feel and& how much ii miss you. In English we are doing scrapbooks and& you are in mine so much it is unbelievable. Here is a letter I wrote to you not to long ago. It doesn't have everything I'm feeling but it covers a little less than half. Nobody knows the half of what ii am really going threw. iloveyou.*

*Dana Marie Stella Regan </3 =)*

*((The letter was in different fonts and&*

*pretty colors.))*

*Dear Danawana,*

*Today is an okay day I don't really know how to explain what my feelings.*

*Things aren't too bad on my end. I guess things could always be worse.*

*You and& I are teenagers now =) ;; we hit the double digits that actually mean something. Lately I have been thinking about how Mr. Santos told us that you passed away. I ~~HATE~~ that moment with all my **heart** and& soul it's officially the worse moment of my life. Of all people he could say he said you, you were the last person in my mind without a doubt. I was by Savanna's house and& we were listen to music and& then **Hero Heroin** come on and& I thought of when you and& I sang it in gym. I started to sing all the words then a **tear** came down my cheek and& I thought I could do it, I thought I could listen to all your favorite songs and& think about all the things we did together all the great times we shared, but I couldn't do it, I just couldn't. :*

*( I also thought of the fact that I ~~HATE~~ that one day you're here and& then the next day someone comes and& randomly tells me that I'm never going to see again that no matter how much I wish and& how much I say I'm sorry and& say I will never make*

a mistake again and say that I would do anything to bring you back, give **everything** I have up, you're never going to come back. The hardest part of it all is that I have no say in this so ever. I have to learn to live and to deal with it and remember all the good times we shared. Things aren't the same anymore **Dana**. **It's been a little over a TWO** months and there is not one day that goes by that I don't pass by something that reminds me of you or that I don't think of you. **TWO** months to some people is like okay not a big deal but when you have lost someone **VERY** dear and close to you like I did **TWO** months can feel like a life time, and going through a life time without someone you love is **REALLY TRUST** you were always there for me. I told you **everything** to my concerns ;; my feelings ;; my worries ;; my wonders ;; my entire life. I remember when every morning when I woke up I would call you to make sure you're awake and not over sleeping. We used to talk all the time on the phone even if it's three in the morning I told you if there is anything that you need even if you just need to get something out **DON'T** hesitate to call me. I have to go out for a little with my sister and her boyfriend so I just wanted you to know that iloveyou. and that I hope you had a great birthday and if anything you can still come to me. Visit anytime you feel like it. Rest in peace and be happy okay. I will never forget you ever even if someone came and ~~brain washed~~ me and ill still remember you and all of our memories. I miss you so much and I hope we can see each other again sometime and hopefully it won't be to long of a wait. Well I guess this is goodbye and goodnight for now until I get back home ill **light** a candle for you when I get back. iloveyou. <3 =) I try not to **cry** cause I know if you were here you wouldn't want me crying you would want me to smile so I'm trying to stay **STRONG** and smile but that's really hard to do without you here by my side. When I think of all the good times we had together and all of the **crazy** things we have done together I start to cry and when I start to cry I can't stop. Sometimes I wonder why couldn't it be

*someone else this happened to and& not you. But then I think to myself then who would it be. Everything happens for a reason but I just can't seem to understand the reason for this specific thing happening. So many people loved you and& need you in their life. Sometimes I feel like I'm lost and& I don't know how to fine myself ;; whenever I had felt that way you always knew how to find me and& make me feel like myself again. You brought joy and& happiness into my life from the day you step into it. You were always smiling and& singing and& laughing and& after being with you all the times that I was and& all the times you made me smile, laugh, giggle, and& full of joy I could consider myself the happiest person in the world. I want to thank you for that and& I don't know how or what to do to pay you back for what you have help me become. You have helped me become happy, full of confidence, and& so much more. Well Dana I just wanna tell you goodnight and& that iloveyou. and& I will never forget you ;; sweet dreams :) XoXo hard. I just wish I could make things right and& you would be with the people who love you dearly again. I have been going through a lot and& whenever I have times like this or things didn't feel right or I needed someone to talk to that I could fully*

*If I could only go back in time, if I could get the one wish, if I could only get that second chance to make it all right I would ;; I would protect you like if you were my sister ;; I would never let anything or anyone hurt you ;; you would be by my side every minute, every second so I know that you are okay that you are safe ;; I would do anything for that second chance. No matter how bad I seem to want it nobody wants to give it to me I mean I don't expect them to cause you don't know what you have till you've lost it ;; but I didn't wanna lose you I would never wanna lose anyone like you. *Way too short to call life. Can't wait to see you again. That will be by far the happiest day in my life. Smile for me Dana ii hope your okay. iloveyou. woman :)*

*I put a smile on my face to pass the time by and& hide the tears that follow.*

*To You My Angel <|3 Times passed by No words  
have been spoken I had a heart, But now its broken  
Why did yu go? Where did yu go ? This is so unfair.  
No one deserves this, And its you I miss. I never  
thought this would happen Especially to you, So to  
my angel, I must say. As we would lay, Under the  
stars, We would search for the planets, even mars.  
We would lay in the grass, and just search Search  
for the unknown. We had fun, We had ups & downs.  
We had many smiles, and little frowns. This has  
changed my life. This pain is like a knife. Its not fair what has been done. Wheres  
all the fun? Life I cruel now I know. That I can NEVER let you go <|3*

*oh my god dana. its been more than 2 months since yu left us. this has been the hardest thing in my life EVER. yu are still my best friend even thought i cant see you anymore. everything is different now but iknow yur still here some how. i would do ANYtHiNG to bring yu back. yu have no idea what this has put me threw. like 1 year ago from now we painted anna with nail*

*polish and shoving dog food in her mouth lmao. and when yu used to come to my aunts boat and we got stuck in the water because we forgot to put the ladder in. haha my uncle & dad had to get a rope and pull us outt !! [: oh yeah and over the winter when we would slide down the hill near KFC on the icee. and we kept slipping and falling.and yu told me yu were happy i was there with you. we were so numb. we took our jackets off, layed them on the snow, and watched the stars. you would always say "your the boobs im the butt, we complete eachother." and also "stephanie im like your older sister, if i find out your doing something i dont like,ill kill you. . . i love you " haha. you had the most gorgeous smile i have ever seen in my life !!. haha remember when it was me and you and we rode down yur hill in a wheel chair ? i sat on yur lap and we went down. your neighbors looked at us like we were crazy. [x. sooo many peple miss you. its not fair that yu left me so early. \par*

*"missing someone gets easier, because even thought its one day farther from the last time yu seen them its one day closer to the next time you will"\par  
dana im still hoping i see you again one day. heaven isnt a place for kids. yu should be here still laughing and smiling with me. like the good old days. people just found out we were just best friends. we were soooo close that people actually thought that yu were my sister or cousin. im not suprised. we were blood sister lol. we both opened up a cut we had and we put our blood together. we did that when we were about 7 or 8. i just wish yu kept yur promise. the last thing i herd from you was "bye steph ill see you tomorrow love you." then yu walked on yur bus and it drove away. & thats the last i saw of you ]: i would do anything to turn back the clock and prevent what happened. you dont understand how much i miss you. i cry everynight thinking about you. yu used to ALWAYS be there to tell me it was okay. and yur the only person i would believe. people are telling me im okay, but they dont know what its like to not have yur best friend at yur side anymore. its the hardest thing ever. its like yu were just here. i feel like i just saw yu 2 days ago. not 2 months ago. yu were the only person who gave me hope. but now i dont know where all that hope went. yu have given me so many signs that yur with me. your my guardian angel. and i hope you stay. \par*

***"Now your gone, Now your gone, There you go, There you go Somewhere i cant bring you back. Now your gone, Now your gone, There you go somewhere your not coming back. The day you slipped away, was the day, i found it wont be the same"***

***-Avril Lavigne.***

***You called me your everything one time. Now that i look back on that, it hurts me. Because knowing i meant that much to you, and then yur gone, is the worst. Dana yu were the reason why i jumped out of bed to go to school every day, the reason why i was always happy & smiling. I actually havnt touched my skateboard since yu've passed. its just so hard to do something that me and you did together. Like last week was the first time i rode the train since i have done it with you. I remembered our fun night in the city seeing the Spice Girls. At your wake i remember about 3 weeks before yu died we saw the Spice Girls. & at that moment "Wanna Be" came oon, i ran out of the room crying. i cant stand the fact that yur gone. but yur in a better place now [even thought you rather be down here with all of us]. theres no way yu can get hurt. theres nothing to worry about. your okay. iloveyou soo muchh. and i miss you <3 its okay my angel keep singing yur happy songs. im alway listening.***

***melissa***

***hey dana, me and alijahh are talking about you right now. i miss you alot and theres not i day i dont think of you. no matter how many people say to get over it i never will because i know your gone and never coming back. im going through alot right now with the family, im talking to you about it and i bet your listening.***

***i love you dana!***

*Dana i know I wasnt the closest person to you ever but close enough to be a friend. Im so glad that the last summer you had we were close. If im feeling pain this way I cant begin to imagine how your family and friends feel. Your birthday was yesterday, I wanted so much to write something but I was lost at words. Everyones living on the memories now and im wishing we had so much more. I still remember when me&you&i think ana went to cross county. We were in the bathroom stalls making so much noise. We went to go see Meet the Robinsons, we had those big 3D glasses. When the frog was singng we got up in front of everyone and started dancing. After we finished making those noises in the bathroom you said something to me I would never forget. You said 'This is like the best time I've ever had at the movies like seriously.' In school the next day we wore our 3D glasses at lunch (: Remember apple day?. It was the day me&you created. That was a great day. I remember yu waitng at the door to give me my apple. These are the types of the memories with you I wont ever forget. But what keeps me smiling is knowing your in a better place&that every day without yu here is a day closer to meeting.*

**RIP AND HAVE FUN UP THERE BECAUSE YU DESERVE IT<3.**

Dana,

*i remember the good old days acting like retards on central with shaving cream on our faces saying " beep for the retard" and everyone beeped. i miss you so much, everyday the miss becomes stronger and stronger. i miss school with you, seeing you everyday with your pink bookbag. dana you have no idea how much i miss you. its like everyday i want to call you and talk to you about how much i used to like whats his name. lol. i remember we were at lizs confirmation and we had 2 bring buddy out how he almost got hit by a car, and we ran onto the rock and i was crying and you started crying. it was the stupidest reason in the world, but then we laughed about it. i was at mcdonalds and i was thinking how we bought two mchicken sandwiches and we didnt have enough money lol. i just wish you were here. i keep thinking about those days. i never thought that you would be gone so early. i still dont believe it after two months. today is your birthday the big ONE-THREE. i wish you were still here so we can throw your party and have fun like last year. PUTTING NAIL POLISH ON MY FEET AND BACK. tee pee for your bum hole. lol. making me eat DOG FOOD. wow lol. i still have that thing you recorded on my razr saying" loser loser loser dana is a loser ME!" i play it again and again just to hear your voice. we were supposed to make our confirmation together. i was sitting in the thing thinking about you and thinking about how you would make me laugh in church over the stupidest stuff. lol. then i started laughing and everyone looked at me lol. i miss you more and more each day. i feel your with me alot. and i just wish we could talk again. i love you dana.*

## Stormy

*For so long we've been close enough to be sisters, and yet i still even begin to imagine how this must be for your mom or sister, or any other of the family that were always so close and there to watch you grow up. i still regret the way evrything had to happen, i wish i could of atleast had the chance to tell you how much you actually mean to me, although its more then i could have ever made it out to be. you mean more to me then any other friend of mine. you are the only one thats ever been close enough to actually consider a sister. your house was always my house away from home, and your family was practically a second family to me. you were the only person i had who i coult tell everything too even if i never told you that directly or made it clear enough for you to see. even the friends i called "best friends" were just any other person compared to you. and with all thats happened in the past year you are actually one of my only friends remaining. i didnt even have the friends to just chyll with, but that didnt matter because i still had my select friends that i needed. now i dont even have those people, im becoming so distant from even those who were right after you in the order in which my friends go. and now i have no one, because you were the most important person to ever enter my life and the fact that you had to leave so soon kills me more than i can express to anyone. im trying so hard, and only you know how many tears i shed over you, because noone else could handle me near as good as you could. you were my getaway my escape from reality, and my reason for trying to better myself. i wanted to be a good role model as much as i mess up. i guess i failed at that, and maybe i failed you as a friend, i was never that great at our friendship, and i regret it now. even with all*

*you found everyway to look up to me, when what you didnt know was i was looking up to you, even though you were so much younger then me. you were so careless and i envied the fact you were so young, i wanted to be back to the times when we were singing pink songs on sem ave. in our bathing suits when the world was our stage and back to the times where we believed we were witches, well pretended we believed. these were the times our friendship was greatest, screw age. i hated the fact we became so distant. i was already so alone. you had your whole life ahead of you.*

*speaking of; i havnt mentioned the fact today is your birthday, ive actually been avoiding that very topic. if you couldnt tell. because well can i really say happy birthday while meaning it? maybe im more negative then most of the people who write to you but the fact i dont get to experienc your growing up or eve worse you dont get tow experience it, doesnt make for a happy day atleast not for me. its weird, because as im writing, it seems the songs that play on my ipod are playing at theright times. first, Dont Be So Hard On Yourself and now Big Girls Dont Cry, probably just a coincidence but still.*

*anyway back to your birthday, i wish you were here for me to go down and celebrate it with you. as i was there for your third birthday party and most afterwards. well as unhappy as today will be for alot of people i hope you are atleast having a blast celebrating because you deserve it. and remeber, just as you are here in spirit with us, all your friends and family are in spirit with you also. so party it up. first one asleep gets messed up. ha. but you dont have to wrry about that you are always the very last one asleep. definaly the life and smile of all parties. definately my smile. so please bring my smile back.*

*well today is going to be hard for alot of people so dana, help those who helped you in your life time. especially uour mom and deifnately jessica, you are the light of their lives and theyre so proud of you. trust me! they have every reason to be. you are so kind hearte and you grew into such a beautiful young lady in there 13 years.*

*i still cant fathom the idea of not seeing you but i know you will live on always, i will make it my life foal. to make thathappen. you're my EVERYTHING as cliche as those words always sound, but i can honestly say is not only trade anything but everything just to speak to you one last time and know you're okay.*

*well dana, im always speaking to you even if i never hear you back i know you're litening to every word i have to say, i love you. and am only longing for the day i can see you again. hopefully that day will come. hopefully theres a place to go after this life. becayse i cant imagine the last time i saw you being the way this friendship ends. i miss you and all that was, and i will never stop. see you in my dreams to come, hopefully.*

*goodnight dee.*

*i will speak to you later todayy<3333333333.*

*Dear Dana,*

*Hey! So it's been two months already. Man I miss you a lot even though we weren't close friends but hey we were friends. You were almost 13 years old. On May 15. I bet you were excited. I was. Well I don't have a lot of memories from you, but we always used to sit next to each other in science and you would ask me for the do now and I'd give it to you. Man when I heard the news I could cry I was that much in shock you were such a pretty girl. Well, this is the first I'll be writing you more and I hope that your guardian angel will protect me from everything.*

*We lost a dear friend,  
That wasn't even the end.  
I hope she didn't suffer,  
Now the pain is gone and we're all tougher.  
Being a friend is not all she was,  
She was like family, more like a cuz.  
When the news came out,  
Remembering her was all it was about.  
Our hearts were trying not to shatter,  
But our tears make us sadder and sadder.  
We love you and miss you no matter what,  
Our hearts are opened to you and never will shut.*

*i know i haven't been on this website. truth is i was scared and i didnt think i could do it. this is my first time on it and im already crying just looking at your picture. you always called me nej i missed your voice and the way you said my name. you were alway sitting next to me in almost all our classes because our last names an they would alphabetise it. one of many of our memories was one that i think of all the time and it makes me laugh. i went over your house and we were watching the movie thirteen together which is the best ever you love it very much. so of course you just loved your bologne and mayonise. which by the way you made the best. and you were cutting a cucumber in the kitchen. we just started laughing we were literally on the floor so much i had to pee. so i ran to the bathroom and i called you because i was scared and you said, " what it so scary" i said it was from you grandmothers wig because it kind of scared me which made you laugh. especially when we noticed you ran to the bathroom with the huge cucumber in your hand. then we were on the bathroom floor laughing really hard then i didnt have a chance to use the bathroom. you literally made me pee in my pants. i remember this day like it was just yesterday. ill never forget this memory. even though some people may think it corny ill always remember it as hilarious. 😊❤️*

*Dana, I'm going to try to let you know how ii feel. ii know usually I'm able to open up pretty well but, today is different ii cant seem to explain how ii feel anymore NoT even to myself =|. It's been a over month since you haven't been with me like you used to. Now in 7<sup>th</sup> period I'm all alone and& sometimes ii think to myself and& wonder why you, why the one ii loved so much?! Nobody seems to want to give me answers to my questions, ii have so many. On a Thursday NoT too long ago, and& we had a sub. for*

6<sup>th</sup> period and& at one table it was Me, Lynn, Savanna, Dominique, Kayla, and& when we thought about the fact that it would be one month today that was it. There were tears and& hugs and& thoughts and& memories. ii was telling those who were at the table about the time that you came over my house and& by Bibi house and& we saw that poor bird who couldn't fly so you said, "awww guys can we pick up that bird and& ii said no what if it bites you and& you said ii don't care can we please catch him and& then ii said okay how are we going to get it though and& you said ill get it but we have to find a place for it and& ii said okay ii have a bird cage at my house. So we got the bird but then it got really scared so we let him go." <--- Wow that was so much fun. :] ii wish we could do that again. ii started softball and& when ii had my first practice Savanna and& ii wrote your name in the field. ii though of you that whole time, and& the fact that you wanted to play with us this year. We practiced that same day that you came over, we also play fought with your fone playing that song and& we put Savanna's camera to record it and& we watched that video over and& over jus to see what we could have done differently. We had lots fun that day, ii wish ii could re live that day again and& again. Well, today ii went over Madeline's house and& ii thought of you so much it's NoT even funny ii have so much to talk to you about tonight UghH things haven't been going the way they should. Well NoT really the way they should things aren't going the way ii want them to. ii guess when that happened ii have to wish for the best and& hope everything goes okay. Dana, ii try NoT to cry cause ii know if you were here you wouldn't want me crying you would want me to smile so I'm trying to stay strong and& smile but that's really hard to do without you here by my side. When ii think of all the good times we had together and& all of the crazy things we have done together ii start to cry and& when ii start to cry ii can't stop. Sometimes ii wonder why couldn't ii be the one this happened to and& NoT you so many people loved you and& need you in their life. Sometimes ii feel like I'm lost and& ii

*don't know how to fine myself ;; when ever ii had felt that way you always knew how to find me and& make me feel like myself again. You brought joy and& happiness into my life from the day you step into it. You were always smiling and& singing and& laughing and& after being with you all the times ii was with you ii could consider myself the most happiest person in the world. Well Dana ii just wanna tell you goodnite and& that ii love you and& ii will never forget you ;; sweet dreams :] XoXo*

*If ii could only go back in time if ii could only get that second chance to make it all right ii would ;; ii would protect you like if you were my sister ;; ii would never let anything or anyone hurt you ;; you would be by my side every minute every second so ii know that you are okay that you are safe ;; ii would do anything for that second chance. No matter how bad ii seem to want it nobody wants to give it to me ii mean ii don't expect them to cause you don't know what you have till you've lost it ;; but ii didn't wanna lose you ii would never wanna lose anyone like you. <--- ii want that second change so badly someone give it to me. :[*

YOU WERE THE ONE WHO ALWAYS  
STOOD BESIDE ME*

*SO UNAWARE I FOOLISHLY BELIEVED  
THAT YOU WOULD ALWAYS BE THERE  
BUT THEN THERE CAME A DAY  
AND I TURNED MY HEAD AND  
YOU SLIPPED AWAY*

*IF I HAD ONLY KNOWN  
IT WAS MY LAST NIGHT BY YOUR SIDE  
I'D PRAY A MIRACLE WOULD STOP THE DAWN  
AND WHEN YOU'D SMILE AT ME  
I WOULD LOOK INTO YOUR EYES  
AND MAKE SURE YOU KNOW  
MY LOVE FOR YOU GOES ON AND ON*

IF I HAD ONLY KNOWN*

*Okay dana so right now im not myself. Its just coming to me right now at once. I feel anqry&sad. Why did they have to take yu away&still walk out on the streets. This is tha last person that this should have happened to. We werent so close but close enough to call each other friends. *Dana, I'm going to try to let you know how ii feel. ii know usually I'm able to open up pretty well but, today is different ii cant seem to explain how ii feel anymore NoT even to myself =|. It's been a over month since you haven't been with me like you used to. Now in 7<sup>th</sup> period I'm all alone and& sometimes ii think to myself and& wonder why*

you, why the one ii loved so much?! Nobody seems to want to give me answers to my questions, ii have so many. On a Thursday NoT too long ago, and& we had a sub. for 6<sup>th</sup> period and& at one table it was Me, Lynn, Savanna, Dominique, Kayla, and& when we thought about the fact that it would be one month today that was it. There were tears and& hugs and& thoughts and& memories. ii was telling those who were at the table about the time that you came over my house and& by Bibi house and& we saw that poor bird who couldn't fly so you said, "awww guys can we pick up that bird and& ii said no what if it bites you and& you said ii don't care can we please catch him and& then ii said okay how are we going to get it though and& you said ill get it but we have to find a place for it and& ii said okay ii have a bird cage at my house. So we got the bird but then it got really scared so we let him go." <--- Wow that was so much fun. :] ii wish we could do that again. ii started softball and& when ii had my first practice Savanna and& ii wrote your name in the field. ii though of you that whole time, and& the fact that you wanted to play with us this year. We practiced that same day that you came over, we also play fought with your fone playing that song and& we put Savanna's camera to record it and& we watched that video over and& over jus to see what we could have done differently. We had lots fun that day, ii wish ii could re live that day again and& again. Well, today ii went over Madeline's house and& ii thought of you so much it's NoT even funny ii have so much to talk to you about tonight UghH things haven't been going the way they should. Well NoT really the way they should things aren't going the way ii want them to. ii guess when that happened ii have to wish for the best and& hope everything goes okay. Dana, ii try NoT to cry cause ii know if you were here you wouldn't want me crying you would want me to smile so I'm trying to stay strong and& smile but that's really hard to do without you here by my side. When ii think of all the good times we had together and& all of the crazy things we have done together ii start to cry and& when ii start to cry ii can't stop.

*Sometimes ii wonder why couldn't ii be the one this happened to and& NoT you so many people loved you and& need you in their life. Sometimes ii feel like I'm lost and& ii don't know how to fine myself ;; when ever ii had felt that way you always knew how to find me and& make me feel like myself again. You brought joy and& happiness into my life from the day you step into it. You were always smiling and& singing and& laughing and& after being with you all the times ii was with you ii could consider myself the most happiest person in the world. Well Dana ii just wanna tell you goodnite and& that ii love you and& ii will never forget you ;; sweet dreams :] XoXo*

*If ii could only go back in time if ii could only get that second chance to make it all right ii would ;; ii would protect you like if you were my sister ;; ii would never let anything or anyone hurt you ;; you would be by my side every minute every second so ii know that you are okay that you are safe ;; ii would do anything for that second chance. No matter how bad ii seem to want it nobody wants to give it to me ii mean ii don't expect them to cause you don't know what you have till you've lost it ;; but ii didn't wanna lose you ii would never wanna lose anyone like you. <--- ii want that second change so badly someone give it to me. :[*

*Ughhhhhhhh dana =( . Im back but i dont know what to say . Im so clueless right now . These past days ive been wanting to cry my eyes out but i never did . I had to stay strong because i didn't wanna show my dad that i wasn't strong . I was working last night and i told my dad that i had to go outside just to see if i could find a star . I talked to you and i felt weird because i was talking to the sky . I looked up and i started looking around but there was none to be found . I started tearing and by that point i was ready to cry . I wiped the tears before i bursted . So many times i just wanted to die so i can with up there with you and my grandfather . I told najwa that she looked like you from far away and then i just kept seeing you . I have been having nightmares of my family and friends dying . I dont know what the hell is happening because this never happens . I really miss hearing your voice dana . I call your voicemail one in a while and just to hear it i think about why couldnt i get to know you more ? . I think why did your life end so soon . You shouldnt have died . Out of all people you ? . I never thought you wouldve died . I thought*

*someone else because i knew people that were in some deeper stuff then you .  
Damn i would give my life just for you to have another chance . You deserve a  
scnd damn chance dana =( . I love you evenn though we wasnt that close . I wish i  
can go back in time and just stand next to you or watch you laying down sleeping .  
I just really wanted to see you at least one time . I cant believe this at all . It still is  
a nightmare . Youso damn beautiful and always will be . I wished at 11:11 just to  
see you one more time at least in my dreams and it didnt happen . I had a dream  
with you once . It was weird because it wasnt real . I could feel your touch on my  
arm even though it was all a dream . Is it alright to have these sentimentals in my  
body ? . I never wanted you to go . i will always love you dana and i will never  
4get chuu =/ .*

*Well i cant help but think about you every second of the day.  
Wow dana we had the greatest memories when we were together. We were bestfriends/sisters.*

*i love you so much dana . If only you were still here so we can finish our fairy talle life that we planned most of the time when we were together. I miss your smile and your voice that always made me laugh. Im staying strong for you buddy. The other day i was at the deli thinking about that time you slept over and we bought 20 dollers of junk food. We even bought a cake which we*

*ate all that night. Sweet Jesus and I miss how you always forced me to stay after school with you until like 4:30 because nobody else would stay with you. I miss singing with you at lunch and not caring who was staring at us. I remember when we went to the library and we randomly started to sing and everyone was watching. We went to the library instead of watching Juno haha. Just to finish our vacation homework. I feel like there's a missing part of me. You are and forever will be my best friend no matter what. Even though you're not here in person you're still here and that's what counts. There's not one person who doesn't miss you. You really were a big part of everyone's life. Every picture we have has a great memory that follows it.  
I miss you Dana.*

*"You can shed tears that she is gone,*

*or you can smile because she has lived*

*You can close your eyes and pray that she'll come back*

*or you can open your eyes and see all she's left.*

*Your heart can be empty because you can't see her*

*or you can be full of the love you shared.*

*You can turn your back on tomorrow and live yesterday,*

*or you can be happy for tomorrow because of yesterday.*

*You can remember her only that she is gone,*

*or you can cherish her memory and let it live on.*

*You can cry and close your mind,*

*be empty and turn your back.*

***Or you can do what she'd want:  
smile, open your eyes, love and go on."***
